

JUAN IGNACIO RAMIREZ

IT FIELD SUPPORT TECHNICIAN

Networking | Hardware & Electronics | Windows | Field Service
Olavarria, Buenos Aires, Argentina | juaniramirez5@gmail.com | +54 9 2284 214828

PROFILE

Field IT technician with 10+ years of hands-on technical experience and 8+ years in professional multi-site support. Background across banking, industrial, retail and small-business environments, with strong networking, Windows deployment, hardware/electronics diagnostics, structured cabling and customer-facing support. Independent, practical and comfortable resolving incidents under pressure.

EXPERIENCE

Senior Field Service Technician

Powersis Tecnología | *Mayo 2018 - Mayo 2026*

- Outsourced enterprise field IT across projects and accounts managed by technology partners including SONDA and Kyndryl; onsite support for Santander, Banco Nación, Bayer, Cencosud and other customer environments.
- Branch IT assessments, endpoint deployment, PXE imaging/user migration, server-room interventions, structured cabling, RJ45 testing and LAN/IP/VLAN tasks; deployed 80+ enterprise MFPs across four Bayer facilities.

On-Site IT Support Technician

Ernesto Rodriguez e Hijos S.A. (Vacalin) | *Mar 2024 - Dec 2024*

- Supported approx. 200+ Windows endpoints across offices and factory: PCs, notebooks, printers, Wi-Fi, switches, M365, Android devices, shares, mapped drives and domain workstations.
- Handled deployment, backups, hardware maintenance, remote inter-site support, rack/cabling upkeep and coordination with external IT providers.

Field Installation Technician

Digital Creative SRL | *Jun 2017 - Jan 2019*

- Completed 50+ full-site Pago Facil / Western Union deployments across Buenos Aires Province, installing LAN cabling, workstations, terminals, peripherals and supporting electrical infrastructure.
- Configured, tested and validated complete sites with central operations; returned for maintenance, troubleshooting and equipment replacement.

Independent IT & Electronics Technician

Service Del Valle | *Jan 2014 - Present*

- Advanced repair of desktops, laptops, servers and mobile devices: board-level diagnostics, microsoldering, SMD repair, BIOS work, schematics, storage diagnostics and data recovery.
- Install and support routers, access points, LAN cabling and small-business IT; approx. 10 recurring commercial customers over the life of the business.
