## IT FIELD SUPPORT TECHNICIAN

Networking | Hardware & Electronics | End-User Support | Troubleshooting  
Olavarria, Buenos Aires, Argentina | juaniramirez5@gmail.com | +54 9 2284 214828

### PROFILE

Field IT technician with 10+ years of hands-on technical experience and 8+ years in professional multi-site support. Background across banking, industrial, retail and small-business environments, with strong hardware/electronics diagnostics, Windows deployment, networking, structured cabling and customer-facing support. Independent, practical and comfortable resolving incidents under pressure.

### EXPERIENCE

#### Field Service Technician

**Powersis SRL** | Dec 2024 - Apr 2026

- Independent onsite support for Santander, Banco Nacion, Bayer and Cencosud; full branch IT assessments covering workstations, server rooms, networks and peripherals.
- Deployed and replaced endpoint/network equipment, including 80+ enterprise MFPs across four Bayer facilities; structured cabling, RJ45 testing, rack cleanup, LAN/IP/VLAN tasks and PXE/user migrations.

#### On-Site IT Support Technician

**Ernesto Rodriguez e Hijos S.A. (Vacalin)** | Apr 2024 - Nov 2024

- Supported approx. 200+ Windows endpoints across offices and factory: PCs, notebooks, printers, Wi-Fi, switches, M365, Android devices, shares, mapped drives and domain workstations.
- Handled deployment, backups, hardware maintenance, remote inter-site support, rack/cabling upkeep and coordination with external IT providers.

#### Field Support Technician

**SONDA** | Aug 2019 - May 2022

- Onsite support across Santander and Banco Nacion branches throughout CABA and Buenos Aires Province; workstation imaging, user migration, peripherals, connectivity and server-room incidents.
- Worked independently across customer sites, resolving assigned incidents and escalating when required.

#### Field Installation Technician

**Digital Creative SRL** | Jan 2017 - Jan 2019

- Completed 50+ full-site Pago Facil / Western Union deployments across Buenos Aires Province, installing LAN cabling, workstations, terminals, peripherals and supporting electrical infrastructure.
- Configured, tested and validated complete sites with central operations; returned for maintenance and equipment replacement.

#### Independent IT & Electronics Technician

**Service Del Valle** | Jan 2014 - Present

- Advanced repair of desktops, laptops, servers and mobile devices, including board-level diagnostics, microsoldering, SMD repair, BIOS work, storage diagnostics and data recovery.
- Install and support routers, access points, LAN cabling and small-business IT; approx. 10 recurring commercial customers over the life of the business.

### LANGUAGES

Spanish - Native  
English - B2 Upper-Intermediate  
Cambridge FCE (2013)

### NETWORKING
