

JUAN IGNACIO RAMIREZ

IT INFRASTRUCTURE & SOFTWARE SOLUTIONS SPECIALIST

Olavarria, Buenos Aires, Argentina | juaniramirez5@gmail.com | +54 9 2284 214828 | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

PROFILE

IT technician with 10+ years of experience solving infrastructure, networking, hardware and field-support problems, complemented by end-to-end digital product development for healthcare, education and e-commerce. I combine hands-on diagnosis, business understanding and the ability to turn concrete needs into usable solutions.

CORE STRENGTHS

IT infrastructure · TCP/IP, VLAN, DHCP and DNS · Windows and Microsoft 365 · Hardware and electronics · TypeScript, React and Expo · REST APIs · SQL · Git and Docker · Multi-site support · B2 English

SELECTED DIGITAL PRODUCTS

Mediturnos | React Native · Expo · TypeScript

A healthcare appointment platform with dedicated experiences for administrators, secretaries, professionals and patients.

- Designed and implemented schedules, availability, appointments, records, documents and role-based operational dashboards.
- Converted the system into a self-contained interactive demo using a mock API with safe fictional data.

github.com/jramirez8/mediturnosfrontend/tree/demo

Policell | TypeScript · UX/UI · E-commerce

A navigable e-commerce prototype for a real bicycle retailer in Mar del Plata, Argentina.

- Built product discovery, search, filters, product detail, sizing guidance, cart and simulated checkout.
- Created a responsive product-led experience prepared for future inventory and Mercado Pago integration.

jramirez8.github.io/policell/

Ciencias Exactas | Next.js · TypeScript · UX/UI

An educational platform that organizes classes, subjects and study resources into a clear student experience.

- Translated a real educational need into information architecture, flows and an approachable interface.
- Developed a responsive prototype ready to evolve toward academic management and content delivery.

PROFESSIONAL EXPERIENCE

Senior Field Service Technician

May 2018 - May 2026

Powersis Tecnología

- Outsourced enterprise field IT across projects managed by technology partners including SONDA and Kyndryl, supporting Santander, Banco Nación, Bayer and Cencosud environments.
- Branch assessments, endpoint deployment, PXE, migrations, server-room work, structured cabling and LAN/IP/VLAN tasks; deployed 80+ MFPs across four Bayer facilities.

On-Site IT Support Technician

Mar 2024 - Dec 2024

Ernesto Rodríguez e Hijos S.A. (Vacalin)

- Supported 200+ Windows endpoints across offices and factory: PCs, notebooks, printers, Wi-Fi, switches, M365, Android and domain resources.
- Backups, hardware maintenance, inter-site remote support, rack/cabling upkeep and coordination with external providers.

Field Installation Technician

Jun 2017 - Jan 2019

Digital Creative SRL

- Completed 50+ end-to-end Pago Facil and Western Union agency deployments: LAN, workstations, terminals, peripherals and supporting electrical infrastructure.
- Configuration, testing, central validation and subsequent maintenance and troubleshooting visits.

Independent IT & Electronics Technician

Jan 2014 - Present

Service Del Valle

- Advanced diagnostics and repair for desktops, laptops, servers and mobile devices: board-level work, microsoldering, SMD, BIOS, schematics and storage.
- Installed networks and supported small businesses, serving approximately 10 recurring commercial customers over the life of the activity.
